More Podcasts for PHP

Looks like the [Zend Developer Zone has gotten around to announcing](#) its twice weekly podcast entitled PHP Abstract. I know one or two folk who are stressing themselves out over a microphone for this one

. Good luck

to you both.

Podcasting from DevZone has a start date of June 5th from Cal.

One must be fair, also mention [PHP Architects Pro:PHP podcast](#). I haven't gotten around to hearing Ed Finkler's yet, but I did catch Morgan Tocker from MySQL AB.

I hope my iPod can handle the upcoming load of casts!
